LABORATORY
EVALUATION**

A SERVICE OF THE AMERICAN ASSOCIATION OF BIOANALYSTS

Approved by: CMS

Accepted by: CAP, COLA, TJC, U.S. State Agencies, and A2LA

2024 AAB-MLE Catalog

OVERVIEW

Since 1949, the AAB-MLE Proficiency has made comprehensive external quality control programs available to every individual and clinical laboratory wishing to participate. Updated continuously since their inception, these programs meet the needs of evolving techniques and concepts in the modern laboratory.

Regulatory Agencies—The programs noted in the Analyte Index are approved by Centers for Medicare & Medicaid Services (CMS) and accepted by Commission on Office Laboratory Accreditation (COLA), The Joint Commission (TJC), American Association of Laboratory Accreditation (A2LA), and all state agencies.

The College of American Pathologists has accepted AAB-MLE as an alternative proficiency testing (PT) provider. Be aware that the College of American Pathologists approves alternate PT providers on an analyte-by-analyte basis. Please review the analyte index on the following pages for specific College of American Pathologists accepted analytes. The most current list can be found at www.aab-mle.org. Please verify that you are choosing programs with the College of American Pathologists accepted analytes that you need to meet your College of American Pathologists PT requirements. Any analyte with a NR designation indicates analytes for which CAP does not require proficiency testing. This applies to laboratories being accredited by the College of American Pathologists. AAB-MLE is fully accepted by all other entities and accrediting agencies.

Results of each program are posted to the participant's account on our website within 28 days of the reporting deadline. Cumulative reports demonstrating performance of the past three testing events for CMS-graded analytes are also included. Participant statistics for the entire population of subscribers, segregated according to methodology for most constituents, are available online.

The programs are designed with the flexibility to satisfy the needs of all laboratories ranging from a one-person specialty laboratory to an automated full-service laboratory. We have structured our programs to conform to CLIA '88. We are aware of the economic impact of proficiency testing on the laboratory and we have strived to make our programs as economical as possible.

In selecting programs, one should be aware of federal and state regulatory requirements. Any questions regarding appropriate programs should be addressed to your State Agency or CMS. As detailed further in this catalog, we are offering two basic types of programs:

- Five challenges per testing event which are required for all CMS graded analytes. These analytes are listed in **BOLD** in the catalog program description.
- One, two or three challenges per testing event which are not reported to CMS.

If for a regulated analyte, your laboratory changes mid-year from a non-waived to a waived method, or if the manufacturer is granted waived status, you must maintain enrollment in a five-challenge program for any remaining non-waived tests in the subspecialty as per CMS regulations.

The only programs available are those listed. Special or modified programs cannot be furnished. If you do not perform analysis of a constituent included in our programs, simply do not submit results for that constituent. All specimens with human blood components, except those used in the Viral Markers, HIV Markers & Oral HIV modules, are negative for HIV antibody, HCV antibody and HBsAg at the donor level.

ORDERING INFORMATION

New Participants:

To place an order, go to our website at www.aab-mle.org to download an order form and return the completed form via email to our customer service department at mle@aab-mle.org. Be sure to include a purchase order or credit card information when placing your order.

You may also return the completed form to our mailing address with one of the following:

1. A check for the full amount of the order, or
2. A purchase order with terms of advance payment or net 30 days (payment due 30 days from receipt of order), or
3. Credit Card (American Express, Discover, MasterCard & Visa) information, or
4. Letter of authorization on company letterhead subject to same terms as purchase orders (payment due 30 days from receipt of order).

This is a **prepaid** subscription. No orders will be processed without one of the above payment methods. Credit card payments may be made through our customer service department. Call 800-234-5315 to speak with a representative. The **Annual Registration Fee** is payable each year and is nonrefundable. Enrollment in previous years does not exempt payment of the registration fee.

ORDERING INFORMATION - continued

An Order Verification will be sent to your shipping address. Please allow 2 weeks for order processing; however, if you fail to receive this confirmation, contact our customer service department to ensure your order was received in our office.

New account orders must be received by December 1, 2023; however, we recommend that orders be submitted as soon as possible to guarantee specimen availability. Some programs have limited quantities available. Current participants may be subject to late fees for expedited processing when renewals are submitted past the enrollment deadline.

Attn: Alaska, Hawaii, Canada, Mexico, US Territories and all Foreign participants – these participants will be surcharged for any costs above those normally incurred for delivery in the continental United States. US Territories are not considered part of the continental United States. If submitting a purchase order, please allow for the shipping surcharges. For specific shipping surcharges, please contact our office by calling 800-234-5315 M-F, 8am-5pm Central Time, or email mle@aab-mle.org. All payments are to be in US dollars.

Attn: US Government, State, County, or City Agencies – Programs are subscription products. Please include this clause, if applicable, in your purchase order: “Amount claimed is recommended for payment in advance under the exemption from the provisions of 3 U.S. 530, stated in MP4, Part III, Paragraph 3.02.”

Renewing Participants:

Current participants who have enrolled in our Automatic Renewal Program will be renewed for the 2024 program year based upon their current 2023 order. You will have until November 17, 2023, to cancel your autorenewal without incurring charges. After this date, you will be charged the annual registration fee. All other current participants will receive a 2024 Renewal Form. We encourage renewing participants to return the signed renewal form no later than December 1, 2023, as all products are subject to availability.

All returning participants will receive an invoice by mid-September 2023. Invoices not paid in full by January 16, 2024, will not be shipped the M1 2024 samples.

Cancellations:

We will credit any charges for unshipped specimens if we receive notification in writing **four weeks** prior to the next shipment. In accordance with our cancellation policy, all credits expire within 120 days of the credit memo date. The annual enrollment fee is nonrefundable.

2024 Ship Schedule

Chemistry & Non-Chemistry	Shipping Dates	Last Day for Replacement Specimens	Cut-off Date for Results Submission	Evaluations Posted
M1 2024	February 6	February 14	February 23	March 22
M2 2024	May 14	May 22	May 31	June 28
M3 2024	September 10	September 18	September 27	October 25
Andrology, Embryology	Shipping Dates	Last Day for Replacement Specimens	Cut-off Date for Results Submission	Evaluations Posted
S1 2024	April 9	April 17	April 26	May 24
S2 2024	October 22	October 30	November 8	December 6

Important Information – Participants are responsible for notifying AAB-MLE when the testing kit has not been received **within 3 days** of the shipment date. AAB-MLE’s primary carrier is UPS and the testing kits are **shipped by 2-day service**. Plan accordingly, as alternate shipping dates cannot be provided.

CHEMISTRY PROGRAMS**BOLD analytes are reported to CMS** Δ - denotes Point of Care Testing or Waived Programs**ADULTERATED URINE – ADD-ON [874].....\$105** *2 challenges per testing event*

Available only with 868. For use with adulterant detection methods testing the following analytes:

Creatinine, urine	Nitrates, urine	Oxidants
pH, urine	Specific Gravity, Urine	

AFINION GLYCOHEMOGLOBIN [851].....\$243 *2 challenges per testing event*

Samples for Hemoglobin A1C assay (HgbA1c) with the Afinion only

AMMONIA [836].....\$195 *2 challenges per testing event*

Liquid samples for analysis of Ammonia.

BLOOD GASES [847].....\$384 *5 challenges per testing event*

Aqueous samples for the following analytes (2 sets):

Chloride	Lactate	pO ₂
Glucose	pCO ₂	Potassium
Ionized Calcium	pH	Sodium

 Δ BLOOD LEAD – WAIVED [838].....\$249 *2 challenges per testing event*Whole blood samples for analysis of blood lead levels. **For use with waived testing methods only.****BNP/D-DIMER [846].....\$270** *2 challenges per testing event*

Liquid samples for the following analytes:

BNP	D-Dimer	NT-proBNP
-----	---------	-----------

CARDIAC MARKERS [845].....\$399 *5 challenges per testing event*

Liquid samples for analysis of the following analytes:

BNP	Myoglobin	Troponin T
CK-2/CK-MB	NT-proBNP	
D-Dimer	Troponin I	

CHEMISTRY MODULE [810].....\$414 *5 challenges per testing event*

Liquid serum samples for the following analytes:

Albumin	Cortisol	Protein, Total
Alkaline Phosphatase	Creatine Kinase (CK/CPK)	Sodium
Alpha-fetoprotein (AFP)	Creatinine	T3 Uptake
ALT/SGPT	Free T3	Thyroxine (TT4)
Amylase	Free Thyroxine (FT4)	TIBC-calc
AST/SGOT	GT/GGT	TIBC-Direct
Bilirubin, Direct	Glucose	Triglycerides
Bilirubin, Total	Iron	Triiodothyronine, Total (TT3)
Calcium	Lactic Acid	TSH
Chloride	LD/LDH	UIBC-Direct
Cholesterol, HDL	Lipase	Urea Nitrogen (BUN)
Cholesterol, LDL Direct/Calc	Magnesium	Uric Acid
Cholesterol, Total	Phosphorus	
CO ₂ /Bicarbonate	Potassium	

COMPREHENSIVE METABOLIC PANEL [813].....\$327 *5 challenges per testing event*

Liquid serum samples for analysis of the following analytes:

Albumin	CO ₂ /Bicarbonate	Protein, Total
Alkaline Phosphatase	Creatinine	Sodium
ALT/SGPT	Glucose	TIBC-calc
AST/SGOT	Iron	TIBC-Direct
Bilirubin, Direct	Lactic Acid	UIBC-Direct
Bilirubin, Total	Magnesium	Urea Nitrogen (BUN)
Calcium	Phosphorus	Uric Acid
Chloride	Potassium	

CHEMISTRY PROGRAMS - continued**BOLD analytes are reported to CMS** Δ - denotes Point of Care Testing or Waived Programs**ENDOCRINOLOGY 1 [860].....\$270** 2 challenges per testing event

Liquid serum samples for the following analytes:

DHEA-S	Homocysteine	Testosterone
Estradiol	Luteinizing Hormone (LH)	Transferrin
Ferritin	Prealbumin	Vitamin B12
Folate	Progesterone	
Follicle Stimulating Hormone (FSH)	Prolactin	

ENDOCRINOLOGY 2 [863].....\$237 2 challenges per testing event

Lyophilized samples for the following analytes:

C-peptide	PTH, Intact
Insulin	Vitamin D, 25-Hydroxy

 Δ ETHYL GLUCORONIDE – ADD-ON [873]\$87 2 challenges per testing event

Liquid urine samples for ethyl glucuronide. Only available with 868.

FERTILITY TESTING [858].....\$180 2 challenges per testing event

Liquid serum samples for the following analytes:

DHEA-S	Follicle Stimulating Hormone (FSH)	Progesterone
Estradiol	Luteinizing Hormone (LH)	

FLUIDS CHEMISTRY [875].....\$267 1 challenge per testing event

Liquid fluids samples for the following analytes:

Albumin	Glucose	Sodium
Amylase	Lactic Acid	Total Protein
Chloride	Lactate Dehydrogenase (LD/LDH)	Uric Acid
Cholesterol	pH	

*Enroll in either the Chemistry Module or Comprehensive Metabolic Panel if CMS reporting is required for the above listed analytes.***GLYCOHEMOGLOBIN [850].....\$228** 2 challenges per testing event

Samples for analysis of glycohemoglobin (Hgb A1c).

*Samples are **not compatible** with the Afinion.***GLYCOHEMOGLOBIN, 5-VIAL [852].....\$399** 5 challenges per testing event

Samples for analysis of glycohemoglobin (Hgb A1c).

*Samples are **not compatible** with the Afinion.***HIGH-SENSITIVITY C-REACTIVE PROTEIN (HS-CRP) [765].....\$150** 2 challenges per testing event

Liquid serum samples. This program targets high sensitivity C-Reactive Protein methods only.

For acute inflammatory phase protein CRP, please order regular CRP under Immunology section.

HIGH-SENSITIVITY C-REACTIVE PROTEIN (HS-CRP) – ADD ON [777].....\$78 2 challenges per testing event

Same as 765. Only available with 750 and 751.

IRON BINDING CAPACITY [828].....\$174 2 challenges per testing event

Liquid serum samples for the following targeted analytes:

Transferrin	UIBC (Unsaturated Iron Binding Capacity)
TIBC (Total Iron Binding Capacity)	

I-STAT CHEMISTRY [818].....\$300 5 challenges per testing event

Liquid samples for the following analytes:

Bicarbonate (TCO2)	Glucose	Potassium
Calcium, Ionized	Hematocrit	Sodium
Chloride	Hemoglobin	Urea Nitrogen (BUN)
Creatinine		

CHEMISTRY PROGRAMS - continued**BOLD analytes are reported to CMS****Δ - denotes Point of Care Testing or Waived Programs****Δ I-STAT CHEMISTRY – WAIVED [832].....\$210** *2 challenges per testing event*

Liquid samples for the following analytes using waived methods only:

Bicarbonate (TCO2)	Glucose	Potassium
Calcium, Ionized	Hematocrit	Sodium
Chloride	Hemoglobin	Urea Nitrogen (BUN)
Creatinine		

LIPID PANEL/GLUCOSE – WAIVED [811].....\$210 *2 challenges per testing event*

Liquid serum samples for the following analytes:

Glucose	HDL Cholesterol	LDL Cholesterol (Calc)
Total Cholesterol	Triglyceride	

LIPID PROFILE [829].....\$258 *5 challenges per testing event*

Liquid serum samples for the following analytes:

Lipoprotein (a)	Apolipoproteins A1 & B	Total Cholesterol
HDL Cholesterol	LDL Cholesterol (Direct)	Triglyceride

NEONATAL/DIRECT BILIRUBIN [841].....\$252 *5 challenges per testing event*Liquid samples for analysis of **Total/Neonatal Bilirubin** and Direct Bilirubin**PSA [861].....\$168** *2 challenges per testing event*

Liquid samples for testing.

PSA – ADD-ON [859].....\$78 *2 challenges per testing event*

Same as 861. Only available with 860.

SERUM ALCOHOL/KETONES [835]\$276 *5 challenges per testing event*Liquid serum samples for analysis of **Ethanol** and Acetone, including Beta Hydroxybutyrate.**SERUM HCG [865].....\$216** *5 challenges per testing event*Liquid samples for qualitative and quantitative analysis of **serum hCG**.**SERUM HCG – ADD ON [866].....\$108** *5 challenges per testing event*

Same as 865. Only available with 810, 813, 818, and 824.

SHBG/TESTOSTERONE [854].....\$369 *2 challenges per testing event*

Lyophilized samples for testing the following analytes:

Sex Hormone Binding Globulin	Testosterone, Free
Testosterone, Bioavailable	Testosterone, Total

THERAPEUTIC DRUG MONITORING [830].....\$249 *5 challenges per testing event*

Liquid serum samples for the following analytes:

Acetaminophen	Lithium	Theophylline
Carbamazepine	Phenobarbital	Tobramycin
Digoxin	Phenytoin	Valproic Acid
Gentamicin	Salicylates	Vancomycin

THERAPEUTIC DRUGS – ADD-ON [831].....\$69 *5 challenges per testing event*

Same as 830. Available only with 810.

THYROID ANTIBODIES [864].....\$282 *2 challenges per testing event*

Liquid samples for Thyroglobulin antibody and Thyroid peroxidase antibody (TPO).

THYROID PROFILE [824].....\$285 *5 challenges per testing event*

Liquid serum samples for the following analytes:

Alpha-fetoprotein (AFP)	Thyroxine, Free (FT4)	Triiodothyronine, Total (TT3)
Cortisol	Thyroxine, Total (TT4)	TSH
T3 Uptake	Triiodothyronine, Free (FT3)	

CHEMISTRY PROGRAMS - continued**BOLD analytes are reported to CMS****Δ - denotes Point of Care Testing or Waived Programs****TOTAL PROTEIN [844].....\$258** *5 challenges per testing event*
Liquid samples for **Total Protein** by refractometer.**TUMOR MARKERS [862].....\$411** *2 challenges per testing event*
Liquid samples for the following analytes:

Beta-2-microglobulin	CA 27-29	Prostate-specific Antigen, Free (Free PSA)
CA 125	Carcinoembryonic Antigen (CEA)	Prostatic Acid Phosphatase (PAP)
CA 15-3	Prostate Specific Antigen (PSA)	Thyroglobulin
CA 19-9		

URINE CHEMISTRY [872].....\$270 *2 challenges per testing event*
Liquid urine samples for the following analytes:

Amylase	Glucose	Potassium	Uric Acid
Calcium	Magnesium	Sodium	
Chloride	Osmolality	Total Protein	
Creatinine	Phosphorus	Urea Nitrogen	

Enroll in either the Chemistry Module or Comprehensive Metabolic Panel if CMS reporting is required for the listed analytes.

Δ URINE DRUG SCREEN [868].....\$267 *2 challenges per testing event*
Liquid samples for the following analytes:

Acetaminophen	Cotinine	Methaqualone
Alcohol (Ethanol)	Fentanyl	Opiates (Morphine Trihydrate)
Amphetamines	Hydrocodone	Oxycodone
Amphetamines/Methamphetamines	LSD (Lysergic Acid Diethylamide)	Phencyclidine (PCP)
Barbiturates	6-MAM	Propoxyphene
Benzodiazepines	MDMA (Ecstasy)	Tramadol
Buprenorphine	Meperidine	Tricyclic Antidepressants
Cannabinoids/Marijuana	Methadone	Zolpidem
Carisoprodol	Methadone Metabolite (EDDP)	
Cocaine Metabolite	Methamphetamines	

Δ WAIVED CHEMISTRY PANEL [812].....\$255 *2 challenges per testing event***NOTE: this is for waived methods & instruments only.**

Liquid serum samples for the following analytes:

Alanine Aminotransferase (ALT/SGPT)	Chloride	Phosphorus
Albumin	Cholesterol, HDL	Potassium
Alkaline Phosphatase	Cholesterol, LDL calculated	Sodium
Aspartate Aminotransferase (AST/SGOT)	Cholesterol, Total	Total Protein
Amylase	Creatine Kinase (CK)	Triglycerides
Bicarbonate (CO2)	Creatinine	Urea Nitrogen
Bilirubin, Total	GGT	Uric Acid
Calcium	Glucose	

Δ WAIVED CHEMISTRY PANEL – ADD-ON [833].....\$84 *2 challenges per testing event*
Same as 812. Only available with 824.**WHOLE BLOOD GLUCOSE [870].....\$309** *5 challenges per testing event*
For reporting **Whole Blood Glucose** procedures only.**Δ WHOLE BLOOD GLUCOSE – WAIVED [871].....\$198** *2 challenges per testing event*
For reporting Whole Blood Glucose procedures only. **For multiple analyzer testing, see Specialty Testing section at the end of the catalog.****PPM and Urinalysis****Δ FECAL OCCULT BLOOD [542].....\$144** *2 challenges per testing event*
Simulated stool samples for analysis of fecal occult blood.

NON-CHEMISTRY PROGRAMS**BOLD analytes are reported to CMS** Δ - denotes Point of Care Testing or Waived Programs**Coagulation** **Δ ACTIVATED CLOTTING TIME [332].....\$294** *2 challenges per testing event*

Lyophilized samples are compatible with Actalyke, i-Stat, ITC, Medtronic and Quest Instruments.

COAGUCHEK XS PLUS PROTHROMBIN TIME [330].....\$354 *5 challenges per testing event*Lyophilized samples for **Prothrombin Time** and INR. This module is compatible with Roche CoaguChek XS Plus and XS Pro instruments only. **Δ COAGUCHEK XS PLUS PROTHROMBIN TIME – WAIVED [331].....\$231** *2 challenges per testing event*

Lyophilized samples for Prothrombin Time and INR. This module is compatible with Roche CoaguChek XS Plus and XS Pro instruments only.

COAGULATION MODULE [320].....\$252 *5 challenges per testing event*

Lyophilized samples for the following analytes:

Activated Partial Thromboplastin Time (APTT)	INR	Prothrombin Time (PT)
Fibrinogen	INR calculation	

I-STAT PROTHROMBIN TIME [328].....\$384 *5 challenges per testing event*Lyophilized samples for **Prothrombin Time** and INR. This module is compatible with the Abbott i-STAT instrument only. **Δ ROCHE COAGUCHEK XS INR – WAIVED [324].....\$231** *2 challenges per testing event*Lyophilized samples *for INR only*. This module is compatible with Roche CoaguChek XS instrument only.**Hematology****BLOOD CELL IDENTIFICATION [231].....\$150** *5 challenges per testing event*The CMS portion of this program consists of 5 graded photo images of cells or features **for CMS reporting** and 1 ungraded educational photo image.Additionally, 4 DigitalScope™ whole slide images provided for 2 guided or 2 free form manual differentials that can be reported in this program. **Supplemental testing only; not for CMS reporting.****BLOOD CELL IDENTIFICATION – ADD ON [230].....\$54** *5 challenges per testing event*

Same as 231. Only available with 223 through 229.

HEMOGLOBIN/HEMATOCRIT/WBC [212].....\$255 *5 challenges per testing event*Whole blood samples for **Hemoglobin, Hematocrit and Leukocyte (WBC) count.** **Δ HEMOGLOBIN/HEMATOCRIT – WAIVED [213].....\$192** *2 challenges per testing event*Whole blood samples for *waived* methods only. **Δ HEMOGLOBIN/GLUCOSE - HEMOCUE [215].....\$204** *2 challenges per testing event*

Whole blood samples for testing hemoglobin and glucose on the HemoCue waived method analyzer.

Hematology Automated Differential Instruments

Hematology with automated differential programs are instrument specific. If changes occur during the year, please verify that you are still in the correct program. If you do not see your instrument listed below, consult the most recent instrument and corresponding module list on our website or contact our Technical Support team for assistance.

The following analytes are included in automated differential modules: **3-Part or 5/6-Part Automated Differential, Erythrocyte Count, Hematocrit, Hemoglobin, Leukocyte Count, Platelet Count.****3-part differentials****HEMATOLOGY WITH 3-PART DIFF [225].....\$330** *5 challenges per testing event*

Module is compatible with the following instruments:

- Abbott Cell-Dyn** 3-part differential models
- ABX** all 3-part differential models
- Coulter** all 3-part differential models
- DANAM** all 3-part differential models
- Drew** Evolution
- Mindray** all 3-part differential models

NON-CHEMISTRY PROGRAMS – continued**BOLD analytes are reported to CMS** Δ - denotes Point of Care Testing or Waived Programs**HEMATOLOGY SYSMEX 3-PART DIFF [224].....\$339** *5 challenges per testing event*

Module is compatible with the following instruments:

Sysmex Pochi, KX 21/21N, XP series

5/6-part differentials**HEMATOLOGY WITH 5-PART DIFF [226].....\$381** *5 challenges per testing event*

Module is compatible with the following instruments:

Coulter DxH 600/800/900, Gen-S, HMX, LH500, LH750/755/780

Mindray BC 5-part

HEMATOLOGY WITH 5-PART DIFF- ABBOTT CELL-DYN [223].....\$381 *5 challenges per testing event*

Module is compatible with the following instruments:

Abbott Cell-Dyn 3000/4000 series, Emerald 22, Sapphire, Ruby

Danam Excell 22

Diatron Abicus 5

HEMATOLOGY WITH 5-PART DIFF – AcT 5 AND PENTRA [228].....\$381 *5 challenges per testing event*

Module is compatible with the following instruments:

ABX Pentra 60 C+, 80, 120

Coulter Ac•T 5

HEMATOLOGY WITH 5-PART DIFF – DxH 500 SERIES [227].....\$381 *5 challenges per testing event*

Module is compatible with the following instruments:

Coulter DxH 500 series

HEMATOLOGY WITH 5 OR 6-PART DIFF – SYSMEX [229].....\$381 *5 challenges per testing event*

Module is compatible with the following instruments:

Sysmex XE series, XN/XNL, XS series, XT series

Miscellaneous Hematology**RETICULOCYTE COUNT [240].....\$261** *2 challenges per testing event*

Specimens for all reticulocyte counting methods.

SEDIMENTATION RATE (ESR) [247].....\$201 *2 challenges per testing event*

Specimens for manual and automated systems; samples are not compatible with the ESR Polymedco Sedimat 15 method.

RAPID SEDIMENTATION RATE (ESR) [248].....\$201 *2 challenges per testing event*

Specimens are for rapid ESR test systems only (Sedimat-15, Pro-Sed Auto S or equivalent).

SICKLE CELL SCREEN [249].....\$216 *2 challenges per testing event*

Whole Blood specimens are for detection of hemoglobin S by insolubility tests and by hemoglobin electrophoresis.

Immunoematology**ABO & Rh FACTOR [451].....\$324** *5 challenges per testing event*

Blood Group (ABO) and Rh (D) (5 red cell suspensions)

BLOOD BANK 1 [452].....\$435 *5 challenges per testing event*

Blood Group (ABO) and Rh (D) (5 paired red cell suspensions /plasma)

Unexpected Antibody Detection (5 plasma)

BLOOD BANK 2 [453].....\$465 *5 challenges per testing event*

Blood Group (ABO) and Rh (D) (5 paired red cell suspensions /plasma)

Compatibility Testing (Crossmatch) (1 donor cells)

Unexpected Antibody Detection (5 plasma)

Antibody Identification (5 plasma)

D (RH) TYPING [450].....\$189 *5 Challenges per testing event*This program is for performing **D (Rh) Typing** only by a slide or tube method.Samples are red cell suspensions for typing. **CMS reported.**

NON-CHEMISTRY PROGRAMS – continued**BOLD analytes are reported to CMS** Δ - denotes Point of Care Testing or Waived Programs

DIRECT ANTIGLOBULIN TEST [454].....\$246 *2 challenges per testing event*
 Suspension of red blood cells for direct anti-globulin testing.

Immunology

ANA PANEL [782].....\$315 *5 challenges per testing event*
 Liquid serum samples designed for screen methods as well as EIA and IFA methods:

ANA Screen (for anti-DNA/anti-DNP, or anti-ENA)	Anti-SSA
Anti-DNA (ds, ss)	Anti-SSB
Anti-RNP	IFA Pattern
Anti-Sm	

ANA PANEL – ADD-ON [783].....\$243 *5 challenges per testing event*
 Same as 782. Only available with 750 and 751.

Antistreptolysin O (ASO) – ADD-ON [753].....\$93 *5 challenges per testing event*
 Liquid serum samples for qualitative **ASO**. Only available with 751.

C-REACTIVE PROTEIN [764].....\$138 *2 challenges per testing event*
 Liquid serum samples for qualitative and quantitative evaluation.
 Not for high sensitivity methods. See module [765].

C-REACTIVE PROTEIN (CRP) – ADD-ON [776].....\$72 *2 challenges per testing event*
 Same as 764. Only available with 750.

DIAGNOSTIC ALLERGY [773].....\$399 *5 challenges per testing event*
 Liquid serum samples for quantitative evaluation of the following analytes:

Allergen Specific IgE (14 from 2 specimens)	Total IgE
---------------------------------------------	------------------

IMMUNOLOGY MODULE [750].....\$375 *5 challenges per testing event*
 Liquid sample, a set of samples for each of the following analytes:

Antistreptolysin O	Infectious Mononucleosis	Rheumatoid Factor
---------------------------	---------------------------------	--------------------------

IMMUNOPROTEINS [784].....\$264 *5 challenges per testing event*
 Liquid serum samples for quantitative evaluation of the following analytes:

C3	IgA	IgG
C4	IgE	IgM

INFECTIOUS MONONUCLEOSIS [762].....\$222 *5 challenges per testing event*
 Liquid serum samples for qualitative IgG, IgM or Ig-nonspecific evaluation. **CMS reported.**

Δ INFECTIOUS MONONUCLEOSIS – WAIVED [755].....\$141 *2 challenges per testing event*
 Liquid serum samples for qualitative IgG, IgM or Ig-nonspecific evaluation using waived methods only.

INFECTIOUS MONO/RHEUMATOID FACTOR [761].....\$345 *5 challenges per testing event*
 Liquid serum samples for **Infectious Mononucleosis** and **Rheumatoid Factor**.

RHEUMATOLOGY MODULE [751].....\$276 *5 challenges per testing event*
 Liquid serum samples for **Rheumatoid Factor** and C-Reactive protein (not for high-sensitivity methods)

RHEUMATOID FACTOR [763].....\$222 *5 challenges per testing event*
 Liquid serum samples for qualitative evaluation. **CMS reported.**

SPECIFIC ALLERGEN TESTING [770].....\$399 *2 challenges per testing event*
 14 Allergen specific IgE challenges. Does not include total IgE.

Serology

Δ H. PYLORI ANTIBODY DETECTION [780].....\$186 *2 challenges per testing event*
 Liquid serum samples for qualitative evaluation.

NON-CHEMISTRY PROGRAMS – continued**BOLD analytes are reported to CMS** Δ - denotes Point of Care Testing or Waived Programs**HIV MARKERS [791].....\$318** 5 challenges per testing event

Liquid serum samples for qualitative evaluation of the following analytes:

Anti-HIV1	Anti-HIV1 Confirmation	HIV1 p24 Antigen
-----------	------------------------	------------------

 Δ HIV MARKERS – WAIVED [790].....\$201 2 challenges per testing event

For rapid antigen/antibody testing using waived methods:

Anti-HIV1	HIV1 p24 Antigen
-----------	------------------

MYCOPLASMA ANTIBODY [781]\$192 2 challenges per testing event

Liquid serum samples for qualitative evaluation.

ORAL FLUID HIV ANTIBODIES [793].....\$402 5 challenges per testing eventSimulated oral fluid samples for **anti-HIV1 screening and confirmation.****RUBELLA [771].....\$222** 5 challenges per testing eventLiquid serum samples for qualitative IgG, & Ig-nonspecific evaluation. **CMS reported.****SARS-CoV-2 SEROLOGY [792].....\$324** 2 challenges per testing event

Liquid specimens for SARS-CoV-2 antibody.

SYPHILIS SEROLOGY [772].....\$243 5 challenges per testing eventLiquid serum samples for **qualitative/semi-quantitative** evaluation by **EIA, FTA, MHA, RPR, TPPA and VDRL.****ToRCH [752].....\$310** 3 challenges per testing event,**Must enroll in Rubella [771] for CLIA reporting;** supplemental for Rubella IgM only:

1st & 3rd events only

does not meet CLIA Rubella requirements.

Liquid specimens for the following analytes:

Cytomegalovirus	Rubella IgM
HSV1; IgG, IgM	Toxoplasma
HSV2; IgG, IgM	

VIRAL MARKERS [775].....\$510 5 challenges per testing event

Liquid serum samples for qualitative evaluation of the following analytes:

Anti-HBc, Total/IgG	Anti-Hepatitis A, IgM	Anti-HIV1
Anti-HBc, IgM	Anti-Hepatitis A, Total/IgG	
Anti-HBs	HBeAg	
Anti-HCV	HBsAg	

Microbiology**Proficiency Testing Requirements**

Unlike other specialties under CLIA, Microbiology does not have specific analytes. Instead, laboratories are responsible for selecting Proficiency Testing that covers all aspects of testing offered by their laboratory. The general requirement that Proficiency Testing be comprised of 3 events per year with 5 samples per event applies (with the exception of Acid Fast Smears). The *all aspects of testing offered* requirement means that the laboratory must cover all subspecialties, all basic techniques employed, and all organisms tested by the laboratory.

Federal law requires a minimum of five CMS regulated (non-waived methods) bacteriology challenges per shipment. Individual state laws may differ. When enrolling, ensure your order meets the requirement that is the more stringent of the two. The number of challenges is noted in parentheses. All urine culture specimens are suitable for presumptive identification and/or definitive identification.

To ensure that you meet the 3 by 5 sample requirement, you should select a program that most closely reflects the level of service offered by your laboratory. You may select supplemental programs to cover all aspects of testing offered by your laboratory. If you do not test all sources in a program, you must select an additional program to ensure five reported results. A variety of 5 challenge programs and supplemental programs are offered to make meeting this requirement easier.

It is the responsibility of the laboratory to ensure that they are ordering an adequate selection of Proficiency Testing to meet CLIA requirements. Be aware that Deemed Accrediting Agencies will have their own additional requirements or specific

interpretations of how to meet the proficiency standard. When in doubt you should discuss this with your laboratory's Deemed Accrediting Agency.

Note: The specimens included may contain dangerous pathogens and must be treated with extreme care. These specimens must be handled and disposed of only by personnel trained to work with pathogenic microorganisms.

BACTERIOLOGY – Culture and Identification

Note: CMS requires PT programs to use the CLSI Performance Standards for Antimicrobial Susceptibility Testing. Reporting inappropriate antimicrobials for the intended organism, as indicated by the CLSI guidelines, will be scored as misses.

BACTERIOLOGY 1 [630].....\$381 *6 challenges per testing event*

Pure and mixed cultures will be included for identification. Sources will vary.

Antimicrobial Susceptibility may be performed from the urine culture. For Miscellaneous cultures, all organisms found must be reported. The culture quantities reflect the number of sources per event.

- | | |
|----------------------------------|---------------------------------------|
| 1 Genital Culture | 1 Urine Culture |
| 1 Throat Culture | 1 Antimicrobial susceptibility |
| 3 Miscellaneous Cultures* | 2 Gram Stain/Morphology |

**Possible sources include Blood, CSF, Ear, Eye Sputum, Stool, Wound*

BACTERIOLOGY 2 [640].....\$366 *6 challenges per testing event*

Pure and mixed cultures will be included for identification.

Antimicrobial Susceptibility may be performed from the urine culture.

The culture quantities reflect the number of sources per event.

- | | |
|--------------------------|---------------------------------------|
| 1 Genital Culture | 2 Gram Stain/Morphology |
| 2 Throat Cultures | 1 Antimicrobial susceptibility |
| 2 Urine Culture | 1 Strep A Antigen Detection |

GENITAL CULTURE [646].....\$348 *5 challenges per testing event*

Pure and mixed cultures for identification of genital pathogens, Strep Group B and/or Neisseria gonorrhoea; 1 Gram Stain/Morphology. **CMS reported.**

MISCELLANEOUS CULTURES – ADD-ON [651].....\$207 *3 challenges per testing event*

3 miscellaneous aerobic and anaerobic cultures for identification to include Blood, CSF, Ear, Eye Sputum, Stool, and Wound.

Only available with 640 through 646. **CMS reported.**

MRSA CULTURE [695].....\$327 *5 challenges per testing event*

Culture swab samples for the detection of Methicillin Resistant *S. aureus*. **CMS reported.**

MRSA CULTURE – ADD-ON [696].....\$174 *2 challenges per testing event*

Same as 695. Only available with 630 through 646. **CMS reported.**

SUPPLEMENTAL BLOOD CULTURE [694].....\$171 *2 challenges per testing event*

Lyophilized pellets with dilution buffer to simulate liquid blood samples.

Only available with 630 through 646. **CMS reported.**

THROAT CULTURE [641].....\$348 *5 challenges per testing event*

Pure and mixed cultures will be included for identification. **CMS reported.**

URINE COLONY COUNT [648].....\$264 *2 challenges per testing event*

Lyophilized pellet for bacterial colony count only. No presumptive identification may be submitted for this module.

Colony Count does not contribute to the minimum of five bacteriology challenges.

URINE CULTURE [643].....\$348 *5 challenges per testing event*

Pure and mixed cultures will be included for identification.

- | | |
|---------------------------------------|--------------------------------|
| 5 Culture identifications | 1 Gram Stain/Morphology |
| 1 Antimicrobial susceptibility | |

NON-CHEMISTRY PROGRAMS – continued**BOLD analytes are reported to CMS****Δ - denotes Point of Care Testing or Waived Programs****URINE/THROAT CULTURE [645].....\$351** *5 challenges per testing event*

Pure and mixed cultures will be included for identification. The culture quantities reflect the number of sources per event.

3 Urine Culture identifications	1 Antimicrobial susceptibility
2 Throat Culture identifications	1 Gram Stain/Morphology

BACTERIOLOGY – Non-culture**C. DIFFICILE/ROTAVIRUS ANTIGEN DETECTION [682].....\$333** *5 challenges per testing event*Lyophilized specimens for detection of C. difficile and Rotavirus antigen. **CMS reported.****CHLAMYDIA/GC/STREP B ANTIGEN SCREEN [675].....\$414** *5 challenges per testing event*

Swab specimens for Chlamydia trachomatis, Neisseria gonorrhoea and Streptococcus Group B antigen screens.

These specimens cannot be cultured. **CMS reported.****CHLAMYDIA/GC/STREP B – ADD-ON [673].....\$207** *2 challenges per testing event*Same as 675. Only available with 630 through 646. **CMS reported.****GRAM STAIN [650].....\$252** *5 challenges per testing event*Purified bacterial smears for Gram stain. **CMS reported.**

Includes two educational DigitalScope™ slide images available online only.

LEGIONELLA ANTIGEN DETECTION [686].....\$282 *5 challenges per testing event*

Swab samples for detection of Legionella antigen. For use with Binax NOW Legionella Urinary Antigen Detection kit only.

CMS reported.**OSOM BACTERIAL VAGINOSIS – WAIVED [692].....\$210** *2 challenges per testing event*

Swab samples for testing with Sekisui OSOM BVBlue Test.

RAPID UREASE (CLO) [665].....\$183 *2 challenges per testing event*

Simulated gastric samples for use with CLOtest, PyloriTek or similar methods.

SHIGA TOXIN [684].....\$264 *2 challenges per testing event*

Specimens for Shiga Toxin 1 and 2.

For supplemental testing only, must addition to another 5-vial CLIA acceptable other Bacteriology antigen programs.**STREP A ANTIGEN DETECTION [660].....\$219** *5 challenges per testing event*

Pre-inoculated swabs for antigen screening only.

Any method requiring live bacteria, such as cultures, stains or DNA probe methods should enroll in the Throat Culture or other appropriate Bacteriology Culture and ID module. **CMS reported.****Δ STREP A ANTIGEN DETECTION – WAIVED [662].....\$138** *2 challenges per testing event*

Pre-inoculated swabs for antigen screening using waived methods only.

STREPTOCOCCUS PNEUMONIAE ANTIGEN DETECTION [687].....\$288 *5 challenges per testing event*Swab samples for detection of Strep pneumoniae antigen. For use with Binax NOW Streptococcus pneumoniae Urinary Antigen Detection kit only. **CMS reported.****TRICHOMONAS VAGINALIS – WAIVED [693].....\$210** *2 challenges per testing event*

Lyophilized samples for testing with Sekisui OSOM Test.

VAGINOSIS SCREEN [668].....\$441 *5 challenges per testing event*

Swab specimens compatible with all molecular probe and antigen detection methods for the following vaginal pathogens:

BV Detection	Candida albicans	Gardnerella vaginalis	Trichomonas vaginalis
---------------------	-------------------------	------------------------------	------------------------------

MYCOBACTERIOLOGY**ACID-FAST SMEARS [679].....\$236** *5 challenges per testing event,*Prepared, fixed slides for acid-fast staining. **CMS reported.***1st & 3rd events only***MYCOLOGY****DERMATOPHYTE CULTURE [678].....\$312** *5 challenges per testing event*Swabs for culture and identification. **CMS reported.**

NON-CHEMISTRY PROGRAMS – continued**BOLD analytes are reported to CMS** Δ - denotes Point of Care Testing or Waived Programs

KOH SLIDES [538].....\$201 *2 challenges per testing event*
 Glass slides to represent a KOH examination.

PARASITOLOGY

CRYPTOSPORIDIUM/GIARDIA LAMBLIA ANTEGEN DETECTION [683]...\$369 *5 challenges per testing event*
 Formalinized fecal specimens for analysis of Cryptosporidium and Giardia. **CMS reported.**

PARASITOLOGY [691].....\$399 *5 challenges per testing event*
 Specimens include fecal specimens (formalinized), peripheral blood smears and DigitalScope™ slide images. **CMS reported.**

PVA SLIDES – ADD ON [690].....\$207 *2 challenges per testing event*
 Slides for staining and identification. Only available with 691. **CMS reported.**

VIROLOGY

Δ RESPIRATORY ANTIGEN DETECTION – WAIVED [680].....\$234 *2 challenges per testing event*
 Liquid specimens for detection of the following analytes using waived methods only:
 Influenza Type A & Influenza Type B
 Respiratory syncytial virus (RSV) antigen

RESPIRATORY ANTIGEN DETECTION [681].....\$345 *5 challenges per testing event*
 Lyophilized vials for detection of the following analytes:
Influenza Type A & Influenza Type B
Respiratory syncytial virus (RSV) antigen

Δ SARS-CoV-2 ANTIGEN DETECTION – WAIVED [688].....\$345 *2 challenges per testing event*
 Swab specimens for the antigen detection of SARS-CoV-2 using waived methods only.

SARS-CoV-2 ANTIGEN DETECTION [697].....\$522 *5 challenges per testing event*
 Swab specimens for detection of SARS-CoV-2 by antigen methods. **CMS reported.**

Δ SARS-CoV-2 MOLECULAR DETECTION – WAIVED [689].....\$354 *2 challenges per testing event*
 Swab specimens for the molecular detection of SARS-CoV-2 using waived methods only.

SARS-CoV-2 MOLECULAR DETECTION [698].....\$531 *5 challenges per testing event*
 Swab specimens for detection of SARS-CoV-2 by molecular methods. **CMS reported.**

WAIVED PACKAGES

BASIC WAIVED AND PPM PACKAGE [902].....\$321 *1-2 challenges per testing event*
 Multiple samples for the following analytes:

Fecal Occult Blood	Urinalysis	Whole Blood Glucose
PPM	Urine Sediment	
Strep A Antigen Detection	Urine hCG	

WAIVED AND PPM PACKAGE [901].....\$366 *1-2 challenges per testing event*
 Multiple samples for the following analytes:

Fecal Occult Blood	Urinalysis	Whole Blood Glucose
PPM	Urine Sediment	Hematocrit
Strep A Antigen Detection	Urine hCG	Hemoglobin

ANDROLOGY AND EMBRYOLOGY AND FETAL PROGRAMS

ANTISPERM ANTIBODIES [978].....\$298 *2 challenges per testing event*
 Liquid serum samples for qualitative IgG evaluation.

EMBRYO GRADING [984].....\$334 *2 challenges per testing event*
 Videos for Embryo grading; multiple answers for three different days

FETAL FIBRONECTIN (FFN) [983].....\$446 *2 challenges per testing event*
 Liquid simulated cervicovaginal specimens.

NON-CHEMISTRY PROGRAMS – continued**BOLD analytes are reported to CMS****Δ - denotes Point of Care Testing or Waived Programs****FETAL MEMBRANE RUPTURE TEST [975].....\$404***2 challenges per testing event*

Samples for detection of placental alpha-1-microglobulin

IVF EMBRYO CULTURE MEDIA [976].....\$516*2 challenges per testing event*

Two samples of culture media and one vial of human serum albumin per shipment to challenge the laboratory's ability to test media suitability for in-vitro embryo cultures.

PREIMPLANTATION GENETIC TESTING - ANEUPLOIDY [977].....\$980*3 challenges per testing event*

Samples consists of extracted DNA diluted to the 5 – 6 cell level. The samples will be tested and reported for Sex and Euploid or Aneuploid status and will be graded. Can report chromosome additions or deletions for educational purpose and will not be graded.

SPERM COUNT, QUALITATIVE/POST VASECTOMY [979].....\$288*2 challenges per testing event*Liquid samples of stabilized sperm for qualitative post-vasectomy analysis. **Required for CAP accredited laboratories.****SPERM COUNT, QUANTITATIVE AND QUALITATIVE [980].....\$324***2 challenges per testing event*

Liquid samples of stabilized sperm for quantitative and qualitative analysis and digital videos for Hemocytometer and Makler methods.

SPERM MORPHOLOGY [981].....\$324*2 challenges per testing event*

Unstained semen smears on glass slides and whole slide DigitalScope™ images for sperm morphology analysis.

Samples are not compatible with Testsimplets.

SPERM MOTILITY [985].....\$336*2 challenges per testing event*

Digital video for sperm motility

SPERM VIABILITY [982].....\$324*2 challenges per testing event*

This program is Eosin-Nigrosin stained slides featuring DigitalScope™ images.

SPECIALTY TESTING**This program is designed to meet the laboratory's External Quality Assessment needs in other than the traditional proficiency testing. These are not reported to CMS.****GLUCOSE, WB, EQAS (MULTI-SITE) [903].....\$255***2 challenges per testing event*

This program is WB Glucose testing on multiple glucometers at a facility or institutions. 2 sets of samples shipped.

This allows the participant to challenge up to 20 operators and/or glucometers for testing accuracy.

This is an externally graded program, but for internal use only. **Samples ship with Chemistry/NonChemistry events.**
